

PRANAV BANDAGLE

SOFTWARE ENGINEER

☎ 8169020162 ✉ pranavbandagle18@gmail.com 📍 Mumbai, India [in LinkedIn](#) [🔗 GitHub](#) [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of professional experience in designing and developing scalable web applications using Java, Spring Boot, React.js, Node.js, and Express.js. Experienced in building secure RESTful APIs, responsive user interfaces, and high-performance backend services using MongoDB and MySQL. Proficient in developing modern frontend applications with React.js, Redux, Angular, Tailwind CSS, JavaScript, HTML, and CSS. Hands-on experience implementing JWT/OAuth authentication, Role-Based Access Control (RBAC), integrating third-party APIs, real-time features using Socket.IO, and developing enterprise SaaS applications following Agile methodologies. Passionate about building secure, scalable, and user-centric software solutions.

EXPERIENCE

Full Stack Developer

June 2025 - Present

Mytek Innovations Private Limited

Navi Mumbai, India - Onsite

- Developed and maintained scalable full-stack web applications using **React.js**, **Redux**, **Node.js**, **Express.js** and **MongoDB** delivering secure and high-performance business solutions
- Designed and Integrated Restful APIs, enabling seamless frontend & backend, optimized database queries, and implemented efficient state management using Redux to improve application performance and user experience.
- Implemented secure authentication and authorization using **JWT**, **OAuth2.0**, and **Role-Based Access Control (RBAC)**, ensuring secure access management across enterprise applications.
- Developed scalable backend services and APIs while automating deployments using **AWS**, **Terraform**, and **GitHub Actions CI/CD**.

PROJECTS

Borade AI - AI-Powered Business Growth

React.js | Express.js | Node.js | MongoDB | Tailwind CSS | Redux | JWT

- Contributed to the development of an AI-powered SaaS platform with **1,000+** registered users, enabling **website SEO analysis**, **AI content generation**, **social media automation**, and **business growth insights**.
- Developed responsive and dynamic user interfaces using **React.js**, **Redux**, and **Tailwind CSS**, implementing reusable components, global theming, form validations, and a consistent user experience across the platform.
- Integrated **OAuth2.0 authentication** and official APIs for **Facebook**, **Instagram**, **LinkedIn**, **YouTube**, **X (Twitter)**, **Threads**, and **Pinterest**, allowing users to securely connect social media accounts for content publishing and scheduling.
- Implemented real-time progress tracking using **Socket.IO** for **AI-generated images**, **videos**, and content creation workflows, providing **live status** updates and an **enhanced** user experience.
- Built features including **AI-generated** captions, hashtag, **media library**, **post scheduling**, **campaign management**, **social media growth plans**, **calendar-based event scheduling**, and **analytics dashboards** for multi-platform social media management.

Open4All - Background Verification

React.js | Node.js | Express.js | MongoDB | Redis | Tailwind CSS

- Developed a scalable Background Verification Platform for **Identity**, **Address**, **Employment**, **Criminal**, and **CIBIL Verification** by integrating **Surepass** APIs, enabling organizations to automate candidate verification workflows.
- Built **responsive** and **reusable** user interfaces using **React.js**, **Redux**, and **Tailwind CSS**, implementing secure **form validations**, **dynamic workflows**, and seamless API integration for an improved user experience.
- Designed and developed **Role-based** dynamic verification forms for **HR**, **Managers**, **Colleagues**, and **REFERENCES Or All-in-one Form**, Rendering questionnaires based on the selected respondent while supporting a simplified single-reference workflow for small organizations.
- Developed dynamic, **real-time** verification **report PDFs** using **HTML-to-PDF** generation, integrated **Google Maps Geotagging** APIs to capture and store **latitude/longitude** for address verification, and optimized application performance using **Redis** caching.

Exam Point – Online Examination & Assessment Platform.

Java | Spring Boot | Angular.js | MySQL | Rest APIs | JWT

- Developed a full-stack online examination platform using **Spring Boot**, **Angular**, and **MySQL**, enabling secure online assessments with role-based access for students and administrators.
- Developed responsive and interactive user interfaces using **Angular**, integrated **real-time chat** and feedback functionality, and optimized backend performance for scalable user management.
- Implemented **JWT-based authentication** and **Role-Based Access Control (RBAC)** to secure application resources and manage permissions for administrators, instructors, and students
- Built dynamic examination modules supporting timed tests, automatic evaluation, score calculation, and detailed performance reports to enhance the assessment process.

EDUCATION

Bachelor of Engineering - Computer Engineering

MGM College of Engineering & Technology, Navi Mumbai | 2020 – 2023 | CGPA: 8.32

Diploma in Computer Engineering

Navjeevan Education Society Polytechnic, Bhandup West | 2016 – 2020 | 72.38%

SSC (10th Standard)

S.T. Michael High School, Mahim | 2015 – 2016 | 60%

SKILLS

Programming Languages: Java, Javascript, Python.

Frontend: React.js, Redux, Next.js, Angular, Tailwind CSS, HTML5, CSS3.

Backend & Database: Node.js, Express.js, Hibernate, MongoDB, MySQL, RESTful APIs, JWT, WebSockets, Socket.io, CI/CD

Cloud & DevOps: AWS (EC2, S3), Docker, Git, GitHub, CI/CD, Postman, Agile/Scrum
